Dear Sir:

In response to the Office Action dated April 4, 2003, applicants' representative discussed the action via an exchange of voicemail messages with the Examiner. Applicants' representative noted that the Office action should not be marked as "Final" in view of reasons set forth more fully below. The Examiner agreed that the action should be non-final and offered to issue a new action with a reset date if the applicants would submit a response after final requesting such. Applicants greatly appreciate the Examiner taking the time to discuss the matter with applicants' representative.

The stated reason for the "Final" marking on the Office action was that the applicants had submitted an IDS necessitating the new ground of rejection. However, the IDS in question was filed on May 4, 2001, significantly prior to even the previous action in this case.

In re Appln. of Giliberto et al.  
Serial No. 09/556,567

Accordingly, applicants respectfully request issuance of a non-final Office action with a reset period for response. Applicants again thank the Examiner for his time and consideration.

Respectfully submitted,
